

# Pennsylvania Stormwater Best Management Practices Manual

DRAFT - JANUARY 2005

---

---

**Prepared For:**

Department of Environmental Protection

Bureau of Stormwater Management

Division of Waterways, Wetlands and Erosion Control

# Pennsylvania Stormwater Best Management Practices Manual

2<sup>ND</sup> Draft - JANUARY 2005

**Under Contract No. 2003-WWEC-1**

**Prepared By:**

Cahill Associates Inc.  
104 S. High Street  
West Chester, PA 19382  
(610) 696-4150

**With assistance from:**

Amy Green Associates  
Flemington, NJ

GeoSyntec Consultants  
Boxborough, MA

Low Impact Development Center, Inc.  
Rockville, MD

Pennsylvania Environmental Council  
Philadelphia, Harrisburg, Pittsburgh, PA

RoofScapes, Inc.  
Philadelphia, PA

## Table of Contents

<b>Section 1</b>	<b>Introduction and Purpose of Stormwater BMP Manual .....</b>	<b>1</b>
1.1	Introduction and Purpose of This Manual.....	4
1.2	A Brief Review of Stormwater Problems in Pennsylvania .....	6
1.3	The Existing Stormwater Management System in Pennsylvania: Overview.....	8
1.4	Recent Changes to Pennsylvania’s Stormwater Management System .....	9
<b>Section 2</b>	<b>Stormwater and Pennsylvania’s Natural Systems .....</b>	<b>15</b>
2.1	The Hydrologic Cycle .....	18
2.1.1	Precipitation .....	19
2.1.2	Infiltration .....	22
2.1.3	Evapotranspiration .....	22
2.1.4	Groundwater Recharge and Stream Base Flow .....	24
2.1.5	Surface Runoff .....	25
2.2	Hydrologic Impacts of Development and Impervious Surfaces .....	26
2.3	Stormwater Management .....	30
2.4	Stormwater and Water Quality .....	35
2.5	Major Watersheds and Stream Systems .....	41
2.6	Important Natural Systems of Pennsylvania.....	43
2.6.2	Soils .....	47
2.6.3	Vegetation .....	50
2.6.4	Physiography .....	52
2.7	References .....	55
<b>Section 3</b>	<b>Stormwater Management Principles, Goals, and a Management Model</b>	<b>59</b>
3.1	Introduction .....	62
3.2	Recommended Site Control Guidelines .....	62
3.2.1	Recommended Volume Control Guideline .....	64
3.2.2	Extended Detention (CG-2 only).....	72
3.2.3	Recommended Peak Rate Control Guideline (CG-1 and CG-2).....	72
3.2.4	Recommended Water Quality Control Guideline (CG-1 and CG-2).....	73
3.3	Stormwater Standards for Special Areas .....	74
3.4	Boiling it Down: Top Ten Principles for Stormwater Management in Pennsylvania .....	75
<b>Section 4</b>	<b>Comprehensive Stormwater Management: Integrating Site Design, Non-Structural, and Structural BMP's .....</b>	<b>77</b>
4.1	Recommended Site Design Procedure for Comprehensive Stormwater Management.....	80
4.2	The Site Design Checklist for Comprehensive Stormwater Management .....	82
4.3	Importance of Site Assessment .....	86
4.3.1.	Background Site Factors .....	86
4.3.2.	Site Factors Inventory .....	87
4.3.3.	Site Factors Analysis .....	87

<b>Section 5</b>	<b>Comprehensive Stormwater Management: Non-Structural BMP's</b>	<b>91</b>
5.1	Introduction	94
5.2	Non-Structural Best Management Practices	94
5.3	Non-Structural BMP's and Stormwater Methodological Issues	96
5.4	Protect Sensitive and Special Value Resources	97
	BMP 5.1: Protect Sensitive and Special Value Features	99
	BMP 5.2: Protect/Conserve/Enhance Riparian Areas	105
	BMP 5.3: Protect/Utilize Natural Flow Pathways in Overall Stormwater Planning and Design	113
5.5	Cluster and Concentrate	119
	BMP 5.4: Cluster Uses at Each Site; Build on the Smallest Area Possible	121
	BMP 5.5: Concentrate Uses Areawide through Smart Growth Practices	129
5.6	Minimize Disturbance and Minimize Maintenance	141
	BMP 5.6: Minimize Total Disturbed Area – Grading	143
	BMP 5.7: Minimize Soil Compaction in Disturbed Areas	150
	BMP 5.8: Re-Vegetate and Re-Forest Disturbed Areas, Using Native Species	156
5.7	Reduce Impervious Cover	163
	BMP 5.9: Reduce Street Imperviousness	165
	BMP 5.10: Reduce Parking Imperviousness	171
5.8	Disconnect / Distribute / Decentralize	177
	BMP 5.11: Rooftop Disconnection	179
	BMP 5.12: Disconnection from Storm Sewers	183
5.9	Source Control	187
	BMP 5.13: Streetsweeping	189
<b>Section 6</b>	<b>Comprehensive Stormwater Management: Structural BMPs</b>	<b>195</b>
6.1	Introduction	198
6.2	Groupings of Structural BMPs	198
6.3	Manufactured Products	199
6.4	Volume/Peak Rate Reduction by Infiltration BMPs	201
	BMP 6.1: Porous Pavement with Infiltration Bed	203
	BMP 6.2: Infiltration Basin	225
	BMP 6.3: Subsurface Infiltration Bed	233
	BMP 6.4: Infiltration Trench	243
	BMP 6.5: Rain Garden/Bioretention	253
	BMP 6.6: Dry Well / Seepage Pit	269
	BMP 6.7: Constructed Filter	277
	BMP 6.8: Vegetated Swale	289
	BMP 6.9: Vegetated Filter Strip	309
	BMP 6.10: Infiltration Berm & Retentive Grading	325
6.5	Volume/Peak Rate Reduction BMPs	337
	BMP 6.11: Vegetated Roof	339
	BMP 6.12: Rooftop Runoff - Capture & Reuse	353
6.6	Runoff Quality/Peak Rate BMPs	363
	BMP 6.13: Constructed Wetland	365

BMP 6.14: Wet Pond/Retention Basin .....	377
BMP 6.15: Dry Extended Detention Basin .....	389
BMP 6.16: Water Quality Filter .....	401
6.7 Restoration BMPs .....	409
BMP 6.17: Riparian Buffer Restoration .....	411
BMP 6.18: Landscape Restoration .....	431
BMP 6.19: Soil Amendment & Restoration .....	443
6.8 Other BMPs and Related Structural Measures .....	453
BMP 6.20: Level Spreader .....	455
BMP 6.21: Special Detention Areas - Parking Lot, Rooftop .....	469
6.9 Protocols for Structural BMPs .....	475
Protocol 1: Infiltration Systems Guidelines .....	477
Protocol 2: Soil Evaluation and Investigation for Infiltration BMP's .....	485
<b>Section 7 Stormwater Management for Urban Areas .....</b>	<b>495</b>
7.1 Introduction .....	498
7.2 Urban Water Quality .....	499
7.3 Urban Land Characteristics That Influence Stormwater Management .....	500
7.4 Stormwater Control Guidelines and Urban Areas .....	505
7.5 Water Quality Issues in Urban Areas .....	505
7.6 BMP Selection and Suitability for Urban Areas .....	506
Case Study 1: Sadie Tanner Mossell Alexander, University of Pennsylvania Partnership School	509
Case Study 2: Fencing Academy of Philadelphia .....	510
Case Study 3: Department of Environmental Protection Southeast Regional Office .....	511
Case Study 4: Ford Motor Company Rouge River Manufacturing Plant .....	512
7.8 References .....	513
<b>Section 8 Special Stormwater Management for Highways and Roads .....</b>	<b>515</b>
8.1 Introduction .....	518
8.2 Roadway Runoff Quality Issues .....	519
8.3 BMP Considerations for Roadways .....	520
8.4 Specific BMP Considerations .....	524
8.4.1 Limited Access Highways, Interstates and Turnpikes (Principal Arterials) .....	524
8.4.2 New Streets and Residential Roads .....	524
8.5 Gravel Roads .....	525
8.6 References .....	527
<b>Section 9 531</b>	
<b>Stormwater Calculations and Methodology .....</b>	<b>531</b>
9.1 Introduction to Stormwater Methodologies .....	534
9.2 Existing Methodologies for Runoff Volume Calculations and their Limitations .....	534
9.2.1 Runoff Curve Number Method .....	534
9.2.2 Small Storm Hydrology Method .....	535

9.2.3	Infiltration Models for Runoff Calculations .....	536
9.3	Existing Methodologies for Peak Rate/Hydrograph Estimations and their Limitations .....	537
9.3.1	The Rational Method .....	537
9.3.2	Modified Rational Method .....	537
9.3.3	SCS (NRCS) Unit Hydrograph Method .....	537
9.4	Computer Models .....	538
9.4.1	HEC Hydrologic Modeling System (HEC-HMS) .....	538
9.4.2	SCS/NRCS Models: TR-20 and TR-55 .....	538
9.4.3	Storm Water Management Model (SWMM) .....	538
9.5	Precipitation Data for Stormwater Calculations .....	539
9.6	Water Quality .....	540
9.6.1	Analysis of Water Quality Impacts from Developed Land .....	541
9.6.2	Analysis of Water Quality Benefits from BMPs .....	543
9.6.3	Water Quality Analysis .....	545
9.7	Guidance for Stormwater Calculations for CG1 and CG2 .....	546
9.7.1	Stormwater Calculation Process .....	546
9.8	Non-structural BMP Credits .....	549
9.8	References and Additional Information Sources .....	578

**Section 10 Case Studies: Innovative Stormwater Management Approaches and Practices ..... 581**

10.1	Introduction .....	584
10.2	Outline of Information Needed for Case Studies .....	585
10.3	Case Studies .....	586
	Case Study 1: Penn State University - Centre County Visitor Center, Centre County .....	586
	Case Study 2: Dennis Creek Streambank Restoration, Franklin County .....	594
	Case Study 3: Commerce Plaza III, Lehigh County	
	Case Study 4: Flying J. Truck Plaza for Welsh Oil of Indiana Truck Refueling Terminal .....	598
	Case Study 5: Ephrata Performing Arts Center .....	602
	Case Study 6: Lebanon Valley Agricultural Center .....	604
	Case Study 7: Penn State University Berks County Campus .....	605
	Case Study 8: Warm Season Meadows at Williams Transco .....	608
	Case Study 9: Hills of Sullivan Residential Subdivision .....	610
	Case Study 10: Applebrook Golf Course Community .....	613
	Case Study 11: Swan Lake Drive Development .....	616
